UX/UI Designer

Are you an innovator who can make users' digital experiences easier, more secure and more enjoyable? Do you want to join a company that invests in its people and is changing the way companies do business?

If you answered yes, we'd like to tell you more about ourselves and this position.

We are IMPACT TECH LTD. We're a FinTech company with vision, character and a culture which breeds success and rewards excellence and we are looking for a talented UX/UI designer to join our growing team in Limassol.

We'd like to add a professional to our creative team who can deliver innovative, on-brand for screen mock-up designs and prototyping. Some front-end development capabilities would be a bonus but is not essential. Your high-quality creations will be delivered by deadline and support and enhance the Impact Tech brand.

What you will do:
- Create designs, concepts, and sample layouts based on knowledge of layout principles and aesthetic design concepts - online/offline designs (web design, UI/UX design for apps, printing collaterals, web banners, catalogue, social media content, display design and graphic layouts)
- Produce design presentations including visual design, interaction design, design research and prototyping.
- Responsible for visually communicating the identity of the brand and ensuring it remains consistent across all mediums
- Develop design/art concepts to match brand identity and product communication points
- Manage multiple projects and remain flexible through multiple revisions while maintaining keen attention to detail in a fast-paced environment
- Demonstrate effective time management and the ability to handle multiple design projects simultaneously and meet their deadlines
- Provide final detailed design specifications and assets for front-end developers to implement.

Requirements:
- Advanced experience in development software tools such as Adobe Creative Suite and/or other design applications employing the highest quality standards and demonstrating attention to detail, typography and colour
- Expert understanding of Sketch, InVision, and other related UX/UI design tools
- A digital portfolio showcasing innovative online/offline design, responsive web, user experience and visual design work for desktop and touch devices
- UI & UX experience, interface layout, interface design, visual design, interaction design, establishing visual guidelines
- Proactive, problem-solving abilities and the understanding to prioritise as deadlines change
- Possess expert understanding of multimedia design and experience building files for both print and digital channels
- Experience in designing iOS/Android app experiences from start to finish as a visual and UI designer with familiarity of iOS/Android development
- Able to anticipate change and react efficiently; comfortable with ambiguity
- Able to create processes that support the development of amazing work in a creative environment
